Downward revision of foodgrains

1219. SHRI G.K. VASAN: Will the Minister of CONSUMER AFFAIRS, FOOD AND PUBLIC DISTRIBUTION be pleased to state:

(a) whether there has been a downward revision of foodgrains production estimates;

(b) if so, the reasons therefor; and

(c) the steps taken to meet consumption demand in case of a shortfall in production?

THE MINISTER OF STATE IN THE MINISTRY OF CONSUMER AFFAIRS, FOOD AND PUBLIC DISTRIBUTION (SHRI SUBHASH MAHARIA): (a) and (b) As per the Fourth Advance Estimates released on 1st July, 2003 the total foodgrains production for 2002-03 has been placed at 182.57 million tonnes as compared to 184.06 million tonnes according to the Third Advance Estimates released on 4th April, 2003. As several States were affected by severe drought which adversely affected agricultural production, revisions were found necessary in the figures used in the compilation of Third Advance Estimates.

(c) As the stock of foodgrains comprising both rice and wheat have been well above the buffer norm, the shortfall in production has not affected the supply position *vis-a-vis* demand.
